RE: Ogden Street Road Closure

Beginning Wednesday, March 6, 2019, the City of Marinette will be installing a new water main along Ogden Street, between Water Street and Waupaca Foundry's south driveway. Most of the work will be off the road and vehicular traffic should experience little disruption.

The new water main will be tied into the existing water main under Ogden Street starting Wednesday, March 13th. Once the Ogden Street construction work begins, Ogden Street will be closed to all traffic between Water Street and Waupaca Foundry's south driveway. A detour will be posted while the road is closed. The detour is expected to be in place for seven working days. The work schedule is weather dependent, therefore, the project dates and duration could change.

Thank you.

Brian R. Miller
Director of Public Works
